

Western European Network Cabinet Manufacturing Company

Overview

We manufacture control cabinets | A+B Electronic Besides PCB assembly, we also manufacture control cabinets, turnkey and in any quantity. We cover everythin.

Key Takeaways

Leading Western European network cabinet manufacturers include Wenvex, Intellinet Europe, Rittal, nVent SCHROFF, and EFB-Elektronik, offering customizable, high-quality solutions for IT and industrial networks.

Key Manufacturers

Wenvex (Europe-wide) Wenvex specializes in premium welded server cabinets for colocation, edge, and enterprise infrastructure. They focus on fast delivery, customizable configurations, and robust European-made builds, leveraging decades of industrial manufacturing experience in enclosures and metal housings for various industries. Intellinet Europe (Europe-wide) Intellinet offers a wide range of floor-standing and wall-mounted network cabinets suitable for standard IT environments and demanding industrial applications.

Their products come with different protection ratings, such as IP20 and IP55, ensuring security and adaptability for diverse network setups. Rittal (Germany) Founded in 1961, Rittal is a global leader in server racks, network cabinets, power distribution, and air conditioning solutions. Their cabinets are highly customizable and comply with international standards, serving over 90% of industries worldwide. nVent SCHROFF (Germany) Established in 1962, nVent SCHROFF manufactures data cabinets, racks, subracks, and electronic enclosures.

Their products are recognized globally for quality and compliance with national and international standards, supporting a wide range of IT and industrial applications. EFB-Elektronik (Germany) EFB-Elektronik provides a professional range of network and server cabinets, with over 2,000 products available. They offer expert advice and service, catering to both standard and specialized data center requirements.

Additional Considerations

Other European manufacturers, such as Technor, Qprex, Cahors, and Armagard, provide specialized cabinets for industrial, telecom, and energy management applications. These include pressurized, modular, and wall-mounted enclosures designed for harsh environments and high-security needs.

Summary

Western Europe hosts a robust network cabinet manufacturing sector, with companies offering customizable, high-quality, and standards-compliant solutions for IT, industrial, and data center applications. When selecting a manufacturer, consider product type, IP rating, customization options, delivery speed, and regional support to match your infrastructure requirements.

Article Content
