

What are some steel cable tray companies in Ethiopia

Overview

Professional cable tray manufacturing in Addis Ababa, Ethiopia. We produce high-quality cable trays, ladders, and accessories for electrical and industrial applications.

Key Takeaways

Leading steel cable tray manufacturers in Ethiopia include NAHMA Precision Metal Products, Brilltech Engineers, and Condition Trading and Engineering, offering a range of ladder, perforated, PVC, and stainless steel trays. Key Manufacturers¹.

NAHM

A Precision Metal Products Plc Located in Addis Ababa, NAHMA is a prominent manufacturer and exporter of cable trays, ladders, and accessories. They specialize in high-quality ladder and perforated cable trays, custom solutions, and sheet metal products for industrial and electrical applications. Their production facility emphasizes quality control and reliability, and they have experience serving both local and international clients.

2. Brilltech Engineers Pvt. Ltd Brilltech Engineers provides a wide range of cable trays including mild steel, stainless steel, PVC, ladder, and perforated trays.

They focus on customized solutions for residential, commercial, and industrial sectors. Their in-house manufacturing ensures precise design, quality checks, and timely delivery. They also offer after-sale support and are recognized for maintaining high client satisfaction.

3. Condition Trading and Engineering Plc (CTE) CTE manufactures and supplies construction and electrical materials, including cable trays, light poles, and electrical appliances. They also provide installation and training services, making them a versatile supplier for both products and technical support.

Market Context Ethiopia's cable tray market is growing rapidly due to infrastructure projects, industrial parks, and energy sector expansion, including the Grand Ethiopian Renaissance Dam (GERD). Hot-dip galvanized steel is the most common material, while aluminum alloy and fiberglass-reinforced polymer (FRP) trays are used for specialized applications. Local manufacturing is limited, with over 85% of cable trays imported, primarily from China, India, and Turkey.

Material and Standards Hot-dip galvanized steel: Optimal for most Ethiopian climates. Stainless steel 316/316L: Recommended for high-alkali soils or humid regions. Aluminum alloy: Lightweight and corrosion-resistant for specialized installations.

Standards: Compliance with ESA SES 501: 2015 (structural safety) and ET-NFC 2015 (fire codes) is required, with minimum 1.5mm thickness for steel trays and grounding continuity per IEC 61537.

Conclusion

For projects in Ethiopia, NAHMA Precision Metal Products, Brilltech Engineers, and CTE are reliable local manufacturers offering a variety of steel cable trays. Buyers should consider material suitability, compliance with Ethiopian standards, and the potential need for custom solutions when selecting a supplier. Local production ensures faster delivery and easier after-sale support, while imported trays may offer cost advantages for large-scale industrial projects.
