

Where can I find manufacturers of vertical cable trays

Overview

Cable trays and baskets are designed to help support and route cable bundles in an organized manner along ceilings or walls.

Key Takeaways

Vertical cable trays can be sourced from specialized manufacturers such as Sanfeng Elec, Atkore International, Chalfant Manufacturing, and Snake Tray, offering durable and customizable solutions for industrial, commercial, and data center applications.

Leading Manufacturers and Suppliers

-

Sanfeng Elec: Offers premium vertical cable tray systems designed for multi-story buildings, industrial facilities, and data centers. Their trays are made from galvanized steel, aluminum, or stainless steel, featuring perforated designs for ventilation, adjustable mounting brackets, and high load capacity for power, data, and communication cables .

-

Atkore International: Provides a wide range of cable management solutions, including vertical and horizontal cable trays. They specialize in industrial cable management systems and offer customized stainless steel trays suitable for global distribution .

-

Chalfant Manufacturing: Known for high-quality cable tray systems, including ladder and perforated types. They offer innovative products like self-connecting trays and walkable designs, suitable for heavy-duty installations .

-

Snake Tray: Manufactures aluminum and steel cable trays, including vertical systems for data centers, solar installations, and transit projects. Their solutions focus on cost-effectiveness and timely availability .

-

Other notable suppliers: PT Trias Indra Saputra, Sunil Engineering Corporation, and ELCON CABLE TRAYS PVT. LTD. provide a variety of cable tray types, including vertical, ladder, perforated, and wire mesh trays, along with accessories and junction boxes .

Online Marketplaces and Directories

-

B2B platforms like Tradewheel.com and DirectIndustry list multiple manufacturers of vertical cable trays, allowing buyers to compare specifications, materials, and pricing. These platforms also provide access to small and medium-sized manufacturers offering customized solutions .

-

Ekabel24: Offers a range of cable trays and ladders compliant with DIN EN 61537 and international standards, suitable for vertical installations in industrial and commercial settings .

Considerations When Choosing a Manufacturer

- Material: Galvanized steel, aluminum, stainless steel, or FRP depending on environmental conditions and load requirements.
- Design: Perforated for ventilation, adjustable brackets for wall configurations, and compatibility with horizontal trays.
- Compliance: Ensure adherence to standards like DIN EN 61537 or IEC equivalents.
- Customization: Some manufacturers provide tailored solutions for specific building layouts or cable loads.
- Support and Warranty: Extended warranties and installation guidance can reduce long-term maintenance costs.

By exploring these manufacturers and platforms, you can identify vertical cable tray solutions that meet your project's technical and budgetary requirements.
